

## BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

**Eternal vigilance is the price of a beautiful complexion** when such remedies are relied on.

Mr. H. T. Shobe, of Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

**SSS** purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

Cold and cough cures are numerous, but the one that leads all others in merit, is Foley's Honey and Tar, which is in great demand these days. Clarke & Kenney.

### For Pneumonia

Dr. C. J. Bishop, Agnew, Mich., says: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." There is nothing so good. Clarke & Kenney.

### SHE HAS A NEW VALISE.

Why She Bought It and Why, Also, She Will Not Lend It.

A Portland woman tells this story, which may have a moral:

Several years ago her husband made her a present of a traveling bag made of black Russia leather, handsomely mounted and strong and serviceable. She had had it only a few days when the sister-in-law of her boarding mistress borrowed it to take with her to the White mountains. It looked so much nicer than her own was her apology. It had only been returned a few days when a friend who was going to take a little journey up among the hills of Oxford county begged the loan of it, and again it was taken down from "the upper shelf." Then another friend was to make a visit of a few weeks in Montreal. Could she take it? She could and did. By this time the new look had vanished, and still its owner had had no occasion to carry it.

One evening a favorite cousin called. He was captain of a brig which was to sail for the coast of Africa the next day, but he himself was going on a steamer via England. Did his cousin have a valise she wouldn't need for six months or so? Reluctantly the traveling bag was produced, and that was the last time the lady saw it for two years, when it reached her by the hand of a sailor from the brig. But it was in such a battered and forlorn condition that she consigned it to the waste barrel.

In the meantime she had bought a new valise, which she declined to lend.

A wealthy man was once exhibiting proudly to a younger acquaintance a table which he had bought. He said it was 500 years old.

"That is nothing," remarked his young visitor. "I have in my possession a table which is more than 3,000 years old."

"Three thousand years old!" said the host. "That is impossible. Where was it made?"

"Probably in India."

"In India. What kind of a table is it?"

"The multiplication table!"

### Our First Pianos.

The first pianos known in America were imported from London in 1784 by John Jacob Astor, but as they could not stand the rigors of this climate they soon became ruined. This fact led to the attempt to build pianos in this country, and in the early part of the nineteenth century pianos made their appearance.

### The Tower of Famine.

The Torre della Fame, or Tower of Famine, was noted for its gruesome history. It once stood in Pisa, Italy, but there are now no traces of it. Count Ugolino della Gherardesca, whom Dante immortalized, was the head of the Guelphs, and because of his tyranny and accredited attempts to place his country in bondage he was antagonized and finally conquered by the chief of the Ghibellines, who imprisoned him, with his two sons and two grandsons, in this tower, the slow method of starvation being employed as the manner of their death. The door of the tower was locked and the keys thrown into the Arno.
